

MAGNUM TRÅDLØS TERMOSTAT TAK

Art.no	5430115
GTIN	7071236009818

Magnum wireless electronic thermostat with LCD display is specially developed for remote control of heating elements such as TF ceiling heating. Due to its radio frequency technology, the thermostat can be easily integrated into both existing and new constructions. The thermostat is a good tool both for optimizing energy consumption and increasing your comfort.

ADDITIONAL INFO

Certification	CE
---------------	----

The thermostat is programmable and has 9 built-in programs. In addition, you can set up 4 setting combinations yourself. The thermostat is controlled either by its built-in room sensor or a separate sensor that may be placed in the ceiling. It may be connected to a wireless relay that can control up to 6 roof plates.

The relay has a range of 30 meters indoors. Each thermostat sends a unique signal, which prevents interference if several thermostats are in close proximity.

The thermostat is designed for electric heating.

**PRODUCT DIMENSIONS**

Product height/diameter	80mm	Product Width	140mm
Product length	220mm	Product net weight	200g
