

Art.no	5430167
GTIN	7071236013389

Eberle DTR-E 3102 is a roof gutter thermostat with excellent longevity and a high degree of user-friendliness. The thermostat consists of two thermostat units that are serial connected. These are used to specify the switch-on and switch-off temperature, restricting the thermostat to operate within a given temperature range. Normally, this temperature range will include a few degrees above to a few degrees below freezing, as ice formation is most likely to occur in this interval.

It is important to note that this thermostat only uses temperature to regulate. It does not measure precipitation. The product may be mounted outdoors and is very reliable.

PRODUCT FEATURES

- Roof gutter thermostat
- Excellent longevity
- Bi-metal thermostat unit
- User-friendly

ADDITIONAL INFO

IP Code	IP65
Certification	CE

ELECTRO TECHNICAL DATA

Voltage	230VAC 50/60Hz
Voltage Output	230VAC 50/60Hz

**PRODUCT DIMENSIONS**

Product height/diameter	59mm	Product Width	122mm
Product length	120mm	Product net weight	360g

MAINTENANCE

The product is maintenance-free, but must not be covered.
