

Art.no	8811387
GTIN	7071236014416

TEC 806-12 is a high quality electric glue gun that is both robust and light. It has a narrow profile that contributes to a good overview and maneuverability, and makes it possible to place the hot melt glue with great accuracy. The grip on the handle can be adjusted for different hand sizes and for the amount of glue applied at each pressure. TEC 806-12 has an adhesive capacity of more than 1.8 kg per hour.

This new model has many similarities with 805-12 but has a number of additional functions such as an improved handle and a more efficient melting chamber for faster melting and distribution of glue. The on/off button is more recessed, which means that it is not as easy to accidentally turn it off. The glue gun is equipped with a power cable of 3 meters.

PRODUCT FEATURES

- Thermostat controlled.
- Alternative nozzles available.
- 250W stainless steel chamber that ensures fast heating and maximum life of the glue gun.
- Narrow profile and removable foot makes it practical to use even in tight places.
- On/off switch with light indicator.

PRODUCT DATA

Ambient temperature range in use	0 to 40°C
Ambient temperature range in storage	-30 to 50°C
Min. and max ambient humidity (RH%)	10 to 85%
Material	Polycarbonate (PC)
Colour	Black RAL 9011

ADDITIONAL INFO

Certification	CE
EN Standards	CE
Warranty international	1 year

ELECTRO TECHNICAL DATA

Voltage	230V
---------	------

**PRODUCT DIMENSIONS**

Product height/diameter	60mm	Product Width	280mm
Product length	330mm	Product net weight	750g
